

COMERCIAL NAME: DC-9

USE: Anti-slipping

DESCRIPTION: The DC-9 - Anti-slipping is an acidic product which enhances grip on pavements, reducing the risk of accidents even on wet or flooded floors. It is recommended for outdoor areas, for smooth and matt floors. It should not be used on brilliant surfaces because it will cause a partial or total elimination of the shine.

COMPOSITION:

Water, ammonia, alcohols, non-ionic surfactants, cationic surfactants and colorant

APPLICATIONS:

Non-slip treatment that slightly increases surface roughness. Recommended for outdoor, wet and slippery areas.

HOW TO USE:

Clean the surface to be treated and apply the product by using a mop. Brush the floor with a hard bristle broom or with a polishing or scrubbing machine equipped with a hard bristle brush or a red pad: remove the product before it dries and rinse with clear water.

WARNING this product may cause the partial or total elimination of shine from brilliant finish surfaces

HAZARD IDENTIFICATION

Danger Indications: Causes severe skin burns and eye damage.

Precautionary statements: Wear protective gloves/protective clothing/eye protection/face protection. Call a POISON CENTER +34 91 562 04 20 or doctor/physician if you feel unwell. IF SWALLOWED: If accidentally ingested, seek immediate medical attention. Keep calm. NEVER induce vomiting. IF ON SKIN: Remove contaminated clothing. Wash skin vigorously with water and soap or a suitable skin cleaner. NEVER use solvents or thinners. IF IN EYES: If wearing contact lenses, remove them. Wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up, and seek medical assistance.

Keep out of the reach of children.
Do not ingest.
Keep only in original container.
