

# TECHNICAL DATA SHEET - GIALOTEX

Shining powder for natural marble floors

WARNING

Abrillantador

**COMERCIAL NAME:** GIALOTEX

**USE:** Shining powder for natural marble floors

**DESCRIPTION:** The GIALOTEX - Shining powder for natural marble floors is suitable for any kind of marble surface, leaving an impressive and natural "mirror-shine" finish on coloured marbles and limestones such as the beiges, reds or black ones.

**COMPOSITION:**

salts and waxes

**APPLICATIONS:**

High-intensity polish of all types of marble and limestone floors

**HOW TO USE:**

The surface has to be clean and dry. Do not dilute or mix with other products. Pour a little quantity of the product (approx. 20gr.x sq.mt.) Over an area of about 2 sq.m. And add a little of water. Buff with the polishing machine fitted with a white pad and spread the paste over all the area to be treated. Gloss will appear while the paste is dissolved by buffing. If the mixture is getting dry, add a little of water to dissolve the product again. If the mixture is too liquid, use the other side of disc and buff again the surface, drying the liquid excess. Once the surface is dry and shiny, vacuum it and rinse with clean water.

**HAZARD IDENTIFICATION**

**Danger Indications:** Harmful if swallowed. Harmful in contact with skin.

**Precautionary statements:** Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: If accidentally ingested, seek immediate medical attention. Keep calm. NEVER induce vomiting. IF ON SKIN: Remove contaminated clothing. Wash skin vigorously with water and soap or a suitable skin cleaner. NEVER use solvents or thinners. IF IN EYES: If wearing contact lenses, remove them. Wash eyes with plenty of clean and cool water for at least 10 minutes while pulling eyelids up, and seek medical assistance. Call a POISON CENTER +34 91 562 04 20 or doctor/physician if you feel unwell.

Keep out of reach of children. Do not eat. Keep only in the original container. Restricted to professional uses.

**OTHER:**

Appearance: Solid

Colour: Yellowish

Odour: N.D./N.A.

pH: 2.5

Boiling Point:

N.D./N.A.= Not Available/Not Applicable due to the nature of the product
