

# DB-310 COMPACT

## COMPACT GRINDING MACHINE

This more compact version of the DB-310 floor grinding machine allows an easier use in narrow areas and greatly facilitates loading, unloading and transport operations due to its shorter dimensions and a weight of its main body significantly lower than the DB-310. Its highly studied design and distribution of weights makes this more compact machine has the same grinding capacity as its bigger sister, without being affected in any case by its greater lightness.

**Size:** 78x50x107cm

**Disassembled weight:** 65 Kg

**Price:** 2100.-€
